

Hello there,
Thank you for reading my letter.

I am Kristy, founder of SGN- Signature Global Network. You can find out more about me through our website or my social media pages. I am writing to tell you that SGN, Signature Global Network, is not about me. It is more about you. But first, I want to tell you why I started SGN with a short story.

SGN was founded on 28th Jan 2022, when COVID hit many people's lives for an immensely struggling three years and when everyone in the logistics became overwhelmed, and it is also when many mental health issues rose.

I was doing my logistics jobs and was happy about what I was doing and the difference I had made to people around me and the logistics companies I worked for. Because I believe that to be successful is to create a process and to make a difference. I am a multinational culture embracer, and I love PEOPLE. It was probably because of my childhood experiences that I did suffer from many aspects and some of the stories you could find in my book. It made me want to help people more and do more meaningful things.

Yes, I am an author too, and I love to help people to grow to their own best versions and to fulfill their dreams, which is when I realized that I had a plan. I dream of opening my own global logistics network.

People who have known me for a long time and in real life will always believe what I do because I keep my promises and concentrate on what I do. I have ticked many things on my buck

lists in the last decade. To me, nothing is impossible to a willing heart. Believe and do, and you will get there.

I love connecting with people, so I am opening my schedule to those needing help. I can see there are still many people who DON'T TRUST each other, and they always BREAK PROMISES. My goal is to support and build up our network to the superhero HQ for struggling people in the logistics industry.

In the last decades, global logistics networks did get good stories. However, with reporters and news, many distractive and negative stories cause people to lose faith. Therefore, we need to have SGN, where we can have logistics heroes to make a difference! I realized how eagerly we are required to bring back more faith and trust to this society and to be a helper without a purely commercial or money intention but more value-focused. I believe in me because I believe in you all.

My passion is people, and it will never change. If you are like me with the same mindset and have strength in your company that you think it's not well used, or if you are good but feel something is missing that you need more support and help, feel free to contact the SGN team and me.

If you are looking for a place to invest and sponsor, I believe SGN will be an excellent investment for you in the long term.

We see what we will become in our vision, not who we are now. We are new, but we will be unique because we will keep focusing on our values and goals and achieve our dream together! Now it's your turn to tell me what you are struggling with and what SGN could assist you with. We only want to select members with the same goals and win-win partnerships with our network.

Email me now, and let's schedule a one-on-one: cuilanguo@signaturegln.com
